Technologies: Javascript, ES6, SPA (+ SSR), Express, React, React Native Redux, Snabbdom, Jest, Mocha, Golang, Python, MySQL, NoSQL (mongoDB), RestAPI, Geospatial Queries, Rapid Prototyping, Design Flow.

Tools: Unix, Git version control, Jira, Confluence, Sketch, Invision, Adobe Photoshop / Illustrator / After Effects.

Work Experience

Adidas Group

May 2018 — Present

Software Engineer – HQ Herzogenaurach, Germany

Joined Adidas Group headquarters team in Germany to work on global adidas and Reebok .COM websites. With millions user/web interactions, my top priority is to ensure people all around the world have the best experience with companies' web services. Took ownership of a number of components, being used across Adidas ecom websites worldwide.

CIUK

Jun 2016 — May 2018

Software Engineer – London, United Kingdom

At Career Interactive, London's international consulting firm, I was responsible for delivering a number of platforms for internal staff and clients. High competitive environment and startup-like atmosphere allowed me to rapidly make decisions and approach the problems critically. Developed internal data versioning platform, using Golang, MariaDB, Express, RestAPI. Worked on the improvements and implementation of the new features for the current client-side platform.

Test Partnership

Dec 2015 — Apr 2016

Part-time Software Engineer – London, United Kingdom

Started working at Test Partnership as a part-time Graphic Designer, providing high-quality graphic solutions for online-based tests. Progressed to the development of the external online platform.

Machineflow (formerly The Blur)

Jun 2012 — Present

Founder, CEO – London, United Kingdom

Founded Machineflow with a focus on Machine Learning, AI and Big Data Processing in mind. Previously worked with a number of government and private clients to deliver web services. Portfolio includes corporate websites and landing pages. Currently consulting companies on web and cloud service development and scalability opportunities.

The Embassy of the RK in the UK and Northern Ireland

Oct 2012 — Jun 2013

Trainee IT-consultant – London, United Kingdom

Joined Embassy team as a Part-time Trainee IT-consultant during my studies. Responsibilities included the maintenance of the current web and mail services, IT Support and the development of the local consular web services.

Education

University of Westminster, BEng Software Engineering

Sep 2012 — Jun 2016

First Class Honours – London, United Kingdom

- Gained hands-on experience in the use of current generation software engineering tools/techniques;
- Studied and analysed issues and concerns involved in high-level software management;
- Developed qualities to manage enterprise application development demands.

Other

Competitions

- Top 20, UI/UX competition by Microsoft Corporation in Kazakhstan — 2007
